## Powerful tools to help select books & authors!

Reading tastes are very personal, influenced by factors too numerous to mention. How you find what you read is also often haphazard, **but it needn't be!**

As a library user, you have access to resources that can help direct you to your next favorite novel, another title by a beloved author, or something entirely new in a genre you already enjoy! There also is information that can help you conduct research for a class project or paper.

These online resources, available through your public library, are only a click away, and they're available whenever you need them. All you need is a library card to access most of these resources from home.

And don't forget about the personal expertise of your librarian!

"I've read everything written by W.E.B. Griffin and I need more to read! What other authors write like him?"
