FIVE AMAZING ASTRONAUTS

c2003 Geri Ceci Cupery

Five amazing astronauts floating in a line...
The first one said, "This is mighty fine!"
The second one said, "The stars are so bright!"
The third one said, "Is it day or night?"
The fourth one said, "It's a great view."
The fifth one said, "I think so, too."
Then they all slowly tumbled back into their ship --
And five amazing astronauts continued on their trip.

FIVE SPACEY TRAVELERS

c2003 Geri Ceci Cupery

Five spacey travelers,
Their mission: to explore!
One went on a space walk -
Then there were four.

Four spacey travelers,
Flying fast and free.
One went to the space lab -
Then there were three.

Three spacey travelers,
Quite a crazy crew.
One went to the engine room -
Then there were two.

Two spacey travelers,
Steered around the sun.
One went to the mess hall -
Then there was one.

One spacey traveler,
Saw their job was done.
She turned the spaceship right around,
And headed home again.

TWO LITTLE SPACESHIPS

c2003 Geri Ceci Cupery

Two little spaceships from the planet Blue,
Aimed for the sky and away they flew.
Reached outer space and were on their way,
Zoom, zoom, zoom, through the Milky Way.

Two little spaceships from the planet Red,
The spaceship captains were both named Fred.
Reached outer space and were on their way,
Zoom, zoom, zoom, through the Milky Way.

Two little spaceships from the planet Yellow,
Eating a lunch of freeze-dried jello.
Reached outer space and were on their way,
Zoom, zoom, zoom, through the Milky Way.
