## General Notes

This upgrade includes fixes that have been tested by SCLS staff and staff at some libraries. To the best of everyone’s assessment, the fixes are working well and any bugs identified during testing have been fixed. However, as we learned with past upgrades and patches, we may experience unexpected results following the upgrade. We may also discover new problems. We will use the [Known Problems page](#) to document any post upgrade problems.

## Circulation

Circulation slip templates – checkout receipts. For sites using branch-specific receipt templates, when a receipt/slip was generated, the system was applying the template of the patron's home library, not the template of the checkout library. There is a new setting that specifies the order of precedence for templates. **(SCLS Support ticket #21916)**

Overdue notices – repeating information from previous overdue notices. Default is to show all overdues on all notices; have provided a modification to only show newly-overdue items in the messages. CHANGE IN PRODUCTION WILL BE APPLIED AFTER TESTING CONFIRMS FIX IN SANDBOX 6/13/20 **(SCLS Support ticket #20729)**
