## General Notes

This upgrade includes fixes that have been tested by SCLS staff and staff at some libraries. To the best of everyone’s assessment, the fixes are working well and any bugs identified during testing have been fixed. However, as we learned with past upgrades and patches, we may experience unexpected results following the upgrade. We may also discover new problems. We will use the [Known Problems page](#) to document any post upgrade problems. **After the upgrade, please clear your browser’s cache before using Bibliovation.**
