

## **ILS Report August 1, 2018**

### **GetIt Acquisitions**

SCLS is continuing to test and will be enlisting the help of library staff.

### **Serials**

SCLS will start the process of creating Annual Clones in August.

### **New Webinars/Tutorials**

The first draft of the script for the “Assigning PSTATS” webinar has been completed but needs to be edited. We are hoping to schedule at least two live webinars, possibly in September or October, and we will record one for on-demand viewing.

### **Bibliovation Demo**

On October 31, SCLS ILS staff will do demonstrations of Bibliovation for member library staff. The demos will be at SCLS Headquarters, with sessions in the morning that are repeated in the afternoon.

Demonstrated will be Circulation, Technical Services and the Discovery Layer. If you attend a relevant session, it will count toward your training certification for 2018 (see below).

### **Training Certification in 2018**

If you are already certified in Circulation, Acquisitions, Cataloging or Serials, attending a relevant Bibliovation Demo on October 31 will satisfy the requirements for 2018 to maintain your certification. It will be a twofer as it will count as a User Group and an Update Webinar. If you are unable to attend, then in order to maintain your certification you can attend a User Group and SCLS staff will present webinars on Bibliovation that will count as an Update Webinar.

### **Codebase fusion testing (Bibliovation)**

SCLS staff continue to test in the Bibliovation sandbox in all modules. We are working with LibLime to prioritize bug fixes and critical functionality – we are currently waiting on critical functionality such as item record ownership in Cataloging, serials subscription ownership in Serials, batch item edit and delete, displaying the full title, completing the cycle of overdue to lost to charged to returned, etc., offline circulation, porting over our receipt management development, tweaking the Search to Hold functionality, hold shelf action report functionality and other various Circulation functions.

### **Authority Control and Database Maintenance**

#### June 2018 Batch Deletes and Authority Control

- 4,430 bibliographic records were added and/or updated in the database between 5/24/18 and 6/25/18.
- 22,488 items and 2,954 bibliographic records (with only withdrawn items attached) were deleted in the monthly batch deletion of withdrawn items.

#### July 2018 Batch Deletes and Authority Control

- 1,260 bibliographic records were deleted in the quarterly batch deletion of records with no items from before April 1, 2018.
- 3,688 bibliographic records were added and/or updated in the database between 6/27/18 and 7/17/18.
- 17,637 items and 3,130 bibliographic records (with only withdrawn items attached) were deleted in the monthly batch deletion of withdrawn items.
