

## Bibliovation Bug Fix Report

In March 2020, libraries ranked known issues in Bibliovation to submit to LibLime as priority fixes. The following are three issues that were prioritized before the voting and were not included in the ranking.

Partially fixed in production. Checking out a hold on behalf of another patron (hold authorization) does not clear hold: A patron can check out a hold on behalf of another patron but the hold is re-queued, not filled. [20812]

Partial fix in production (9/11/2020). Changing priority of an item in transit or on hold shelf: Partial fix: As of 9/11/2020 staff can manipulate the Priority of a hold on the hold shelf to change the pickup location. Read the article for details. Items in Transit cannot be re-prioritized. [20939]

Working in sandbox. Reduced Transportation Holds: There is a fix for this problem in the sandbox. The setting in production is now set at 120 days to still help libraries fill local holds first. [21156]

At the April, 2020 ILS Committee meeting, members selected a set of top 5 issues to submit to LibLime immediately and a second set of 5 issues to submit once the first round is fixed.

First round of five:

Not fixed in sandbox or production. Circulation: Patron data in left sidebar not cleared when using Clear screen button. (8 votes). [20217]

Not fixed in sandbox or production. Circulation: Canceled holds on Holds Awaiting Pickup Report. (8 votes). [21024]

Not fixed in sandbox or production. Discovery Layer: Advanced search option "Only items currently available for loan or reference" includes items not available for loan (7 votes). [21206]

Fixed in production. Circulation: Items checked out to patron but still on hold. (20 holds). [21095]

Fixed in production. Circulation: Fast BIB Add default library (6 votes). [#20725]

Second round of five:
