GENERAL INFORMATION

Library System

South Central Library System

Describe significant needs, opportunities, and challenges that influenced the development of this and other system plans.

2022, 2023 and beyond will be years of activity and evolution for SCLS.

SCLS is working on responding to and implementing changes dictated by the Public Library System Redesign (PLSR) project. SCLS Delivery has been appointed to coordinate statewide delivery and lead participants through phased implementation of PLSR models and other coordinating activities. Delivery within Wisconsin will be moving away from SCLS and toward a hub based system. Delivery frequency, through the U-W agreement, is returning to 5 day service. Delivery to systems will also be increased to 5 days. The renewed U-W agreement resulted in a revenue decrease of over \$130,000 to SCLS. SCLS will be determining how to provide more service at a lower cost. It is also reviewing all internal delivery processes and working toward automated RFID sorting of materials

SCLS is working with its design-builder, Keller Inc, for its new combined delivery and administration facility. The goals are to reduce costs, create efficiencies and strengthen the culture of SCLS. The continuing lessons of COVID-19 are causing SCLS to constantly review its building plans along with shifting priorities to take into account its experiences with staff working remotely and processes within delivery. The project will be funded by a loan from the Board of Commissioners of Public Lands. SCLS plans on breaking ground in 2022 and moving into the new facility in 2023.

Starting in late 2021 and continuing into 2022, SCLS will be working with its members on creating 2 new cost formulas to provide technology services and delivery services. It is looking hard at all services to try and mitigate the financial impacts upon its members.

SCLS will be working to further integrate the Everett Roehl Marshfield Public Library and the Rio Public Library into LINKCat since they migrated to the SCLS shared ILS in 2021. These changes include revision of interlibrary loan processes, delivery, authentication and databases.

The uncertainty and shifting ground under SCLS impacted its focus on its 2022-2024 strategic plan. The next 3 years will be an immersive strategic plan preparing for a post-COVID, post-PLSR future while strengthening SCLS member services.

Did the library system consult member libraries in the development of this plan?

- No, the library system did not include member libraries in the development of this plan.
- Yes, the library system included member libraries in the development of this plan.

If yes, describe the planning environment and process for this system plan. Include how member libraries are involved in plan development and review:

SCLS prides itself on its transparent, member-centric governing processes that oversee purchasing, planning, procedures and priorities for its members and SCLS itself. Creation of the system plan is just another annual task that is a regular occurrence involving member libraries, both formally and informally, throughout the year.

The Administrative Council (AC) meeting where representatives of the SCLS libraries come together to discuss issues brought forth by SCLS and the member libraries occurs monthly. The AC acts as the formally appointed advisory committee for SCLS and its Board of Trustees. The AC representatives have two-year terms, with 1/2 of the body elected each year. The AC reviews system services and activities throughout the year, provides input and then reviews the final draft of the annual system plan and budget each year before it is submitted to the SCLS Board of Trustees and the Division for Libraries and Technology (DLT).

There are two committees that report to the AC:

1. Delivery Committee (DC)
2. Technology Committee (TC).

Both are similarly structured to the AC, with libraries represented by individuals elected to the committee. These committees

GENERAL INFORMATION (cont'd.)

and the AC may form workgroups as appropriate to work on tasks. There are two standing subcommittees that report to the AC:

1. Library Innovation Subcommittee
2. Interlibrary Loan Subcommittee

A third committee, the ILS Committee (IC) exists to make decisions about the shared integrated library system. There are three standing subcommittees that report to the IC:

1. Collection Maintenance Subcommittee
2. Circulation Services Subcommittee
3. Discovery Interface Subcommittee

SCLS works to develop multi-type cooperation and partnerships throughout the system. SCLS funds a multi-type coordinator to develop and manage our multi-type activities. She acts as the representative for the multi-type libraries at committee meetings.

Four times a year, special meetings of the AC, called All-Directors meetings, bring together all of the directors of the public libraries in SCLS to collaborate and vote on budgets, system priorities and fees for the coming year. The budget developed by SCLS is based on these fees, and all libraries have the opportunity to review the plan and budget prior to the meetings.

SCLS staff maintain constant contact with member libraries on an individual basis as well as through the groups described above. All meeting agendas and minutes are posted on the SCLS web site <https://www.scls.info/committees>. Member libraries are encouraged to offer feedback on programs and individual staff performance through email lists and web forms. SCLS staff also ask for more formal feedback on various topics. These include an online bi-weekly newsletter, a weekly email notice, and the wide dissemination of information pertinent to system operations through email and our website, which includes blogs and wikis. Every member library is visited annually by a SCLS staff member to review the service they receive from the system.

The SCLS Board of Trustees meets monthly and has standing subcommittees for Budget and Finance, Personnel, and Advocacy. The subcommittees meet separately from the full board to delve deeply into the annual budget, organization chart and other relevant issues. The Chair of the AC and the Director of the Resource Library are both non-voting members of the SCLS Board of Trustees. The Board receives and reviews all the completed planning data from members and staff, and has the final authority over all system policies and documents that are submitted to the DLT.

The underpinning foundation of SCLS planning is our mission statement, staff values, and system principles. SCLS created quality standards through its Exceptional Service Program. The quality standards are based on the pillars of relationship; helpfulness; efficiency and creativity in all service matters.

Input from the various meetings listed above are incorporated into the SCLS plan. The final meetings for input, review and discussion of the plan were at the August and September meetings of the Administrative Council and the September SCLS Board of Trustees.

If the system appoints an advisory committee under Wis. Stat. § 43.17(2m), describe how the system makes appointments, posts meetings, and how the advisory committee reports to the library system board. Include a list of any additional system planning documents with the period covered and attach any planning documents which have not previously been provided to the Division:
