**Yes please!**

**Yes to the (option) of 4 hours**

**<-- yes, having a 4 hour (option) would be great**

**We've been offering wireless printing through eprint it? It is well used. - Sorry about not knowing the name. ACL**

**MCM and BAR - using ePrint**

**Wireless printing from devices- would be great to have an easy way for patrons to do this**

**YES PLEASE to wireless printing! Patrons are very frustrated that we can't do this.**

# Service Considerations - ILS

Yes. Make local holds decisions in the control of each library.

Yes please to more local holds item types!

**This**  
--->

all NEW item types

**Not this**

<--  
**Agreed**

Another vote for more local holds items

Propose to Circ Services Subcommittee

Can we consider removing the checkout history? Having YEARS of checkout history feels unnecessary and a huge patron privacy issue.

## Service Considerations - Consultant Services

Would Deb Haeffner be willing to do a session for directors on the basics of furniture and shelving? Space considerations, finish considerations, etc? She knows so much!!

Pretty much all the libraries need budget increases.. Can we work together on this at a system or state level?

**YES!!**
