

# Annual Funding

## South Central Library System

Wisconsin's library systems are the mechanism through which state funding benefits public libraries in local communities. Known as Public Library System Aid, this funding is used to provide resources that support the efforts of public libraries.

Systems provide a variety of services and resources necessary to serve the public. These are provided to all libraries to ensure the same standard of service for all Wisconsin residents in a geographic area (like IT support, Delivery and LINKcat).

The Wisconsin Legislature allocated about \$17 million for Public Library System Aid in the 2018 and about \$17.5 million in 2019. Of those amounts each year, the South Central Library System receives slightly more than \$2 million through a formula that factors in population and service area.

A portion of Public Library System Aid is used by SCLS to offset library costs for technology and Delivery, and the remainder is used for services like:

- continuing education programming and professional development
- graphic arts and printing/marketing/promotion consultation and support
- building design services like space needs assessments and space plan layouts/options, information on architectural firms, and assistance with furniture/finish selection
- youth services and outreach to special populations consultation
- website design and hosting consultation
- consultation for questions about state statutes, assistance with completing library annual reports, trustee training and responsibilities, and other library administration issues

Public Library System Aid is also used to pay administrative costs. LINKcat & PC support to libraries is provided on a fee for service basis.

In addition to Public Library System Aid, the State Legislature allocates biennial funding for the following statewide services/resources:

- four library service contracts (Wisconsin Talking Book and Braille Library, InterLibrary Loan, WiLS, and Cooperative Children's Books Center) at about \$1,167,000 for each year of the upcoming biennium;
- BadgerLink and Newsline for the Blind at \$2,965,400 for FY 2017-18 and \$3,025,800 for FY 2018-19.
